

Arcam provides cost-efficient Additive Manufacturing solutions for production of metal components. Arcam's Electron Beam Melting (EBM®) technology offers design freedom combined with excellent material properties and high productivity. Arcam is, through our solution orientation and comprehensive product offering, an innovative partner for advanced manufacturing, primarily in the aerospace and medical industries.

Arcam provides EBM systems through Arcam AB in Sweden, powder metals through AP&C in Canada and implant contract manufacturing through DiSanto in the U.S. The company is listed on Nasdaq Stockholm and the Head Office is located in Mölndal, Sweden.

Join us at Arcam and become part of an exciting industry!

Field Service Engineer Arcam CAD to Metal Ltd

We are looking for a talented individual to handle technical service on our Arcam EMB machines for UK and Republic of Ireland. The customers are mainly in aerospace and orthopaedic industries. This is an opportunity for you who are interested in becoming part a fast growing international company.

Core Responsibilities

- Machine installations and hands-on service at our customers. This includes mechanical-, electrical and software work.
- Provide initial on-the-job customer training on system use.
- Provide technical support by phone and e-mail for installed machines.

Qualifications

- We think that the right candidate is an experienced, hands-on, engineer with a relevant education, electrical and/or mechanical.
- Experienced in technical problem solving of mechanical, electrical and PLC.
- Excellent level of English, both written and spoken.
- Good communication skills with a true interest in customer satisfaction is a must and you are a highly motivated person with the ability to work both independently and in a team.
- Valid driver's license and good driving record as well as ability to travel extensively, with little notice prior to travel.

Compensation

A competitive package will be negotiated for the right candidate.

Location

Our UK office is located in Warwick but you will spend most of the time at our customers in UK and the Republic of Ireland (ROI).

Don't hesitate, send us your application today!
