

**Arcam** provides cost-efficient Additive Manufacturing solutions for production of metal components. Arcam's Electron Beam Melting (EBM<sup>®</sup>) technology offers design freedom combined with excellent material properties and high productivity. Arcam is, through our solution orientation and comprehensive product offering, an innovative partner for advanced manufacturing, primarily in the aerospace and medical industries.

Arcam provides EBM systems through Arcam AB in Sweden, powder metals through AP&C in Canada and implant contract manufacturing through DiSanto in the U.S. The company is listed on Nasdaq Stockholm and the Head Office is located in Mölndal, Sweden.

Join us at Arcam and become part of the additive revolution!

## Field Service Engineers, Sweden

If you are looking for an exciting job in an area with unlimited possibilities, this is the job to apply for. We are looking for talented individuals to handle technical service on our EBM machines, give support to and train our customers around the world. You will be stationed in Sweden but work mostly abroad, mainly in Europe but also worldwide.

**We believe that you** are a well experienced engineer, used to working with high tech machines/equipment, that you have a good theoretical background as well as good hands-on engineering skills.

**Your core responsibilities** will be to preform machine installations and service at our customers, provide initial on-the-job customer training on system use and technical support by phone and e-mail for installed machines.

We think that the right candidate holds technical education, preferably with a focus on mechanics, electronics or automation technology or similar.

Experience in technical problem solving of mechanical, electrical and PLC controlled systems is highly valued, as well as experience in Additive Manufacturing issues. You need to have an excellent level of Swedish and English both written and spoken, other languages are to your advantage,

**Your personal qualities** are important, we believe that you possess good communication skills with a true interest in customer satisfaction, that you are a highly motivated person with the ability to work both independently and in a team. You need a valid driver's license and good driving record as well as ability to travel extensively, with short notice prior to travel.

Don't hesitate, send us your application today!

For further information, please contact:

Peter Ternebring, recruitment consultant at Confidera Urval, phone +46 31 27 33 30 or Lisette Stål, HR at Arcam, phone +46 31 710 33 44.

Please send us your application no later than February 24<sup>th</sup>, marked "Field Service Engineer", to: [career@arcam.com](mailto:career@arcam.com)
