

Test Engineer – Complete System

Arcam provides cost-efficient Additive Manufacturing solutions for production of metal components. Arcam's Electron Beam Melting (EBM®) technology offers design freedom combined with excellent material properties and high productivity. Arcam is, through our solution orientation and comprehensive product offering, an innovative partner for advanced manufacturing, primarily in the aerospace and medical industries. Arcam provides EBM systems through Arcam AB in Sweden, powder metals through AP&C in Canada and implant contract manufacturing through DiSanto in the U.S. The company is listed on Nasdaq Stockholm and the Head Office is located in Mölndal, Sweden.

We are looking for a test engineer who is **passionate about testing** and truly enjoys what they do. In this role you will be participating in the **setup of requirements**, you will manage test plans and be responsible for the setup of test equipment and environment. You will also be **performing tests** and do test analysis

We work with the latest in additive manufacturing (also known as **3D printing**) and are the forefront in our field. We believe that you are an ambitious, goal-oriented person who understands what is needed to complete and finalize a project. You take pride in your work and committed to delivering quality results on time. You enjoy working in a **creative and integrated environment** where you'll be taking responsibility and having influence.

Requirement

- Relevant academic education in engineering
- Minimum 2 years of industrial engineering experience
- Minimum 1 year of testing role within electronics functional testing or system testing
- Knowledge in data analysis and use of different measurement instruments
- Team player and efficient.
- Innovative, creative and quality conscious
- Fluent in English both speaking and writing

A plus

- Certification in testing, vocational studies or hands-on experience
- Knowledge and experience working with Lean/Agile methods
- Swedish both speaking and written

Your personal qualities

- Team player and interest in hands on work
- Innovative, creative and curious
- Not afraid of seeking new ways of working

Our Offer

Full time position with a wide variety of added employee benefits, including bonus, flexible working hours, health and pension insurance benefits. An additional holiday week, all employees have a 6 week holiday
